Talk Colleague
Deliver Presentation
Read current literature, talk with colleagues, continue educatio...
Prepare reports, deliver presentations, or participate in...
Collect Datum
Propose Design
Prepare
Collect data for energy conservation analyses using portable observati...
Propose product redesign involving microelectromechanical systems (MEMS).
Review or negotiate energy purchase agreements.
Develop or test photonic prototypes or models.
Review specifications and recommend engineering or
Review or negotiate energy purchase agreements.
Analyze, fabricate, or test fiber-optic links.
Design, integrate, or test photonics systems or components.
Develop or test photonic prototypes or models.
Review architectural, mechanical, or electrical plans
Build, configure, or test robots or robotic applications
Evaluate robotic systems or prototypes
Evaluate robotic systems or prototypes
Read current literature, talk with colleagues, continue educatio...
Monitor and analyze energy consumption.
Implement or test design solutions.
Test or evaluate photovoltaic (PV) cells or modules
Test or evaluate photovoltaic (PV) cells or modules
Test or evaluate photovoltaic (PV) cells or modules
Test or evaluate photovoltaic (PV) cells or modules
Review specifications and recommend engineering or
