Examine Component
Communicate with other workers to coordinate fitting and alignment of...
Measure the tension of control cables.
Measure parts for wear, using precision instruments.
Test operation of engines and other systems, using test equipment, such a...
Inspect completed work to certify that maintenance meets standards and tha...
Examine and inspect aircraft components, including landing gear, hydraulic...
Inspect airframes for wear or other defects.
Locate and mark dimensions and reference lines on defective or...
Disassemble engines and inspect parts, such as turbine blades or cylinde...
Read and interpret maintenance manuals, service bulletins, and other...
Remove, inspect, repair, and install in-flight refueling stores and extern...
Listen to operating engines to detect and diagnose malfunctions, suc...
Read and interpret pilots' descriptions of problems to diagnose causes.
Inventory and requisition or order supplies, parts, materials, and...
Assemble and install electrical, plumbing, mechanical,...
Maintain, repair, and rebuild aircraft structures, functional...
Reassemble engines following repair or inspection and reinstall engines...
Fabricate defective sections or parts, using metal fabricating...
Trim and shape replacement body sections to specified sizes a...
Examine engines through specially designed openings while working fro...
Spread plastic film over areas to be repaired to prevent damage to...
Assemble and install electrical, plumbing, mechanical,...
Reassemble engines following repair or inspection and reinstall engines...
Install and align repaired or replacement parts for subsequent...
Remove or install aircraft engines, using hoists or forklift trucks.
Remove, inspect, repair, and install in-flight refueling stores and extern...
Remove, inspect, repair, and install in-flight refueling stores and extern...
Accompany aircraft on flights to make in-flight adjustments and...
Remove or cut out defective parts or drill holes to gain access to interna...
Trim and shape replacement body sections to specified sizes a...
Disassemble engines and inspect parts, such as turbine blades or cylinde...
Clean, strip, prime, and sand structural surfaces and materials to prep...
Examine engines through specially designed openings while working fro...
Remove or install aircraft engines, using hoists or forklift trucks.
Remove or cut out defective parts or drill holes to gain access to interna...
Remove, inspect, repair, and install in-flight refueling stores and extern...
Remove, inspect, repair, and install in-flight refueling stores and extern...
Install and align repaired or replacement parts for subsequent...
Clean engines, sediment bulk and screens, and carburetors...
Clean, strip, prime, and sand structural surfaces and materials to prep...
Clean, strip, prime, and sand structural surfaces and materials to prep...
Clean, strip, prime, and sand structural surfaces and materials to prep...
Clean engines, sediment bulk and screens, and carburetors...
Clean engines, sediment bulk and screens, and carburetors...
Clean engines, sediment bulk and screens, and carburetors...
Clean, refuel, and change oil in line service aircraft.
Prepare and paint aircraft surfaces.
Clean, strip, prime, and sand structural surfaces and materials to prep...
Clean, refuel, and change oil in line service aircraft.
Clean engines, sediment bulk and screens, and carburetors...
Prepare and paint aircraft surfaces.
Cure bonded structures using portable or stationary curing...
Clean, refuel, and change oil in line service aircraft.
Clean engines, sediment bulk and screens, and carburetors...
Maintain, repair, and rebuild aircraft structures, functional...
Replace or repair worn, defective, or damaged components...
Maintain, repair, and rebuild aircraft structures, functional...
Maintain, repair using hand tools...
Maintain, repair, and rebuild aircraft structures, functional...
Maintain, repair, and rebuild aircraft structures, functional...
Service and maintain aircraft and related apparatus by performing...
Service and maintain aircraft and related apparatus by performing...
Replace or repair worn, defective, or damaged components...
Maintain, repair, and rebuild aircraft structures, functional...
Maintain, repair, and rebuild aircraft structures, functional...
Maintain, repair, and rebuild aircraft structures, functional...
Modify aircraft structures, space vehicles, systems, or components...
Modify aircraft structures, space vehicles, systems, or components...
